

Family Computer Offer

We are delighted to be able to offer you the chance to buy a computer from the school for a price of £50 (to include Microsoft Office 2007 software). If you do not have a computer this is a great opportunity to obtain one at a greatly reduced price!

As we plan to issue monthly newsletters by email being connected to the internet helps keep you in touch with developments at school. Parents can already see the school calendar, student timetables and attendance by logging onto our website and logging in (contact the school if you don't know how to do this).

If you would like to be considered for this "once in a lifetime" offer, please complete the slip below and **return it to school by Friday 25 September**.

If there is too much demand we will give priority to those families who do not currently have a home computer.

Please understand that we are unable to offer any support or maintenance for machines, however we will offer a 21 day return or exchange policy. This will mean that you can either return your machine for a full refund or exchange it for another machine within 3 weeks of first collecting the computer. There will be no guarantee for any of the machines.

If you are not yet connected to the internet, the Government is planning to introduce a programme called "Home Access" which will allow you to connect for free. More details will become available over the next month.

Do not send any money at this time, we will contact you if your application has been successful.

YES! I would love to have a school computer.

We currently have/do not have* a computer at home (*please delete as appropriate)

I will be happy to pay £50 if my application is successful.
