

21st March 2017

Dear Parent/Carer

National Funding Formula

We are writing to you on behalf of the Governing Body to draw your attention to the current funding challenges faced by schools. You will no doubt be aware that this is a national issue. However, schools in North Tyneside will be significantly impacted by the proposed changes to how schools are funded moving forward.

As a group of Headteachers and Schools we have written the attached letter to give you greater detail of how the proposals will impact on our local authority and, more importantly, across our schools and to ask for your support. We should be grateful if you would take the time to read the letter and please do then respond to the consultation.

As always we thank you for your support.

Yours faithfully

Mrs T Crowder
Executive Headteacher

Mrs A L Welsh
Chair of Governors
