

GCSE Results 2023

***'All success or achievement requires effort and some self-sacrifice.
If it was easy then it wouldn't be worth doing.'***

We are delighted with an impressive set of results and some incredible success stories for individual students. You can read about individual [success stories](#) across the curriculum.

We pride ourselves in catering for students of all abilities. Celebrating students who have achieved top grades as well as those who have achieved their personal best. Some of our very vulnerable students who don't always find school easy have also performed exceptionally well given their individual circumstances.

We are proud of our achievements and these results are once again testimony to the hard work of staff, students and parents.

Key Stage 4 Performance

Please note, the government have issued a cautionary note regarding 2022 exam data for parents "Given the uneven impact of the pandemic on school and college performance data, you should not make direct comparisons between the performance data for one school or college and another, or to data from previous years."
