

06.10.21

Dear Sir/ Madam

During the first term we conduct baseline reading assessments to monitor the current reading ability of our students. As I am sure you understand, reading is a cross-curricular skill that can help students access all subjects that are taught at school, as well as being very important for all students outside of school.

As a result of the baseline assessments, we would like to put in place an intensive reading programme during school time to help boost your child's reading and comprehension. To help support students we will, at times, be using 6th form mentors along with our staff to help boost confidence.

By conducting this programme during the Autumn term we hope to boost your child's confidence, fluency and accuracy when reading; this in turn should help prepare your child for the demands of the high school curriculum and eventually the GCSEs that will commence next year.

Your child will be approached by the worker to let them know when they would like to meet with them.

If you have any questions about this, please contact me at the school and I can explain in more detail.

Thank-you

David Walton  
SENCo
